International Business Management

YOUR STORY™

AGRI-BUSINESS MANAGEMENT

One-year Ontario College Graduate Certificate | Simcoe

Designed to propel you to a supervisory level in the agricultural sector, this program will prepare you to manage an existing organization or run your own business. Students will graduate with a competitive edge – understanding business fundamentals like sales/marketing, human resources and finance with industry specific training in food safety and traceability, safe handling and application of pesticides, precision technologies such as GPS and drone applications. With a six-week field placement and eight-months of both lectures and hands-on learning, graduates will be well prepared to start their career in a wide variety of businesses including small intensive farms, large farming operations, food processing and distribution, boutique enterprises marketing their own products and agriculture supply firms.

HUMAN RESOURCES MANAGEMENT

One-year Ontario College Graduate Certificate | London | University Transfer Credits: fanshawec.ca/degreepathways

This program provides functional knowledge in core human resource (HR) areas. These include recruitment and selection, training and development, HR planning and management, occupational health and safety, organizational behaviour, finance and accounting, compensation and benefits and labour relations. The program also offers courses in HR information systems (HRIS), Canadian employment law, management of strategic HR projects and professional communications. Students have the opportunity to complete all nine Certified Human Resources Professional (CHRP) credits (more info at www.hrpa.ca). A unique experiential learning opportunity is available to select students through the HR Community Consultancy offered in the final semester of the program. Laptop required.

INSURANCE & RISK MANAGEMENT

One-year Ontario College Graduate Certificate | London

This program is designed for university and college graduates looking for a career in the property and casualty insurance industry. It will also allow students to earn credits towards the Chartered Insurance Professional (CIP) designation from the Insurance Institute of Canada. Graduates will be prepared for careers as brokers/agents, risk managers, underwriters, loss adjusters or loss prevention inspectors.

INTERNATIONAL BUSINESS MANAGEMENT

One-year Ontario College Graduate Certificate | London | University Transfer Credits: fanshawec.ca/degreepathways

Students learn to investigate, analyze, manage and direct most aspects of international trade. They work on live client research projects to help small and medium-sized companies capitalize on global trade opportunities. Faculty members have practical hands-on experience in international trade, investment, marketing, finance and business management. Graduates may also pursue a FITT Diploma (Forum for International Trade Training) and the Certified International Trade Professionals (CITP) designation from FITT. The International Business Management program incorporates the same FITT program that is being offered by the Department of Foreign Affairs and International Trade to Canadian Trade Commissioners. Graduates are well-positioned for supervisory and leadership careers in the rapidly expanding global marketplace. Laptop required.

LOGISTICS & SUPPLY CHAIN MANAGEMENT

One-year Ontario College Graduate Certificate | London

Designed for university and college graduates seeking a career in the supply chain sector, this program will focus on applied knowledge in the field of supply chain management within a global economy; encompassing the planning and management of all activities involved in procurement and all logistics management activities. Graduates will be eligible to pursue a number of industry credentials and positions in all functions of the supply chain including procurement, logistics, planning, inventory management, transportation, customer service, customs coordination and related supply chain processes. Laptop required.

MARKETING MANAGEMENT

One-year Ontario College Graduate Certificate | London | University Transfer Credits: fanshawec.ca/degreepathways

This program is designed for students with credentials in business or related fields who wish to broaden their skill-base in all functional areas of marketing. Studies include new-media marketing, event marketing, market research, direct marketing and web design. Students also study search engine marketing (SEM), search engine optimization (SEO) and Google analytics, preparing them to pursue highly desirable Google designations. Small classes and hands-on study of real-life local business issues help students learn and apply practical skills, preparing them for work in today's dynamic business environments. Graduates are well-positioned to pursue careers in sales, marketing, research, advertising and promotion, event planning, direct marketing, e-commerce, database marketing, brand management, public relations and/or media sales. Laptop required.

OPERATIONS MANAGEMENT

One-year Ontario College Graduate Certificate | London

Designed for university and college graduates looking for a career in the operations management sector, this program will develop specialized business operations skill set within a global economy. It will include the planning and management of all operations involved in businesses of varying size and complexity, from supply chain elements to quality assurance and purchasing to project planning. Students will learn to use information and manufacturing technology, as well as the importance of human relations and interpersonal skills. Graduates may continue for an additional semester in our Logistics and Supply Chain Management graduate program (to obtain two credentials in 1.5 years) or start their career in the manufacturing, health care, education, service, retail and construction sectors as a production scheduler or managers of warehouse operations, materials, operations, facilities, logistics or purchasing.

PROFESSIONAL FINANCIAL SERVICES

One-year Ontario College Graduate Certificate | London

This program is designed for students interested in careers as professional financial planners. Curriculum focuses on personal financial management, tax and retirement planning, insurance, investment and estate planning, as well as essential interpersonal and communications skills. Students will also explore the world of financing and investment through "mock" stock-market competitions. Graduates will be well-prepared to seek the CFP® (Certified Financial Planner®) designation awarded by the Financial Planning Standards Council, and to write the Canadian Securities Course® and Life Licensing Qualification Program exams as prerequisites to securities and life-insurance licensing qualifications. Graduates may then pursue careers in banking, investment, insurance, credit and financial-planning settings across the country.

PROJECT MANAGEMENT

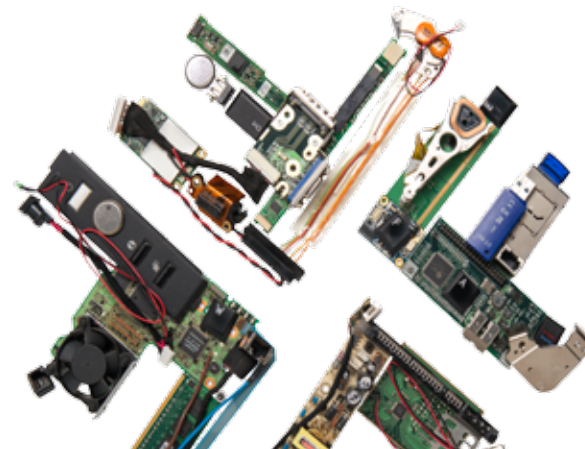

One-year Ontario College Graduate Certificate | London

Students gain the in-depth knowledge, competencies, skills, tools and techniques required to plan and execute major projects that achieve organizational goals on time and on budget. The Project Management Institute (PMI) Project Management Body of Knowledge is an integral part of the program curriculum. The curriculum also addresses emerging trends in project management through courses in agile project management, project recovery and project leadership. Graduates will find employment in large and small organizations, in the public and private sectors and in a variety of fields (e.g., information technology, construction, transportation, education, healthcare and manufacturing). Laptop required.

PUBLIC RELATIONS – CORPORATE COMMUNICATIONS

One-year Ontario College Graduate Certificate | London

This program is best-suited to outgoing students with above-average writing skills. This program prepares college and university graduates to work in corporate communications and public relations. Students hone writing and presentation skills and learn publishing and web-design techniques. They also develop expertise in handling public relations, communications and ethics issues faced regularly by business, government and not-for-profit organizations. A second-term field placement provides hands-on experience as well as valuable industry contacts. Graduates find work in advertising and PR agencies, hospitals and health-care institutions, banks, insurance agencies, arts and media organizations, small and large manufacturers, governments and non-profit agencies.

INFORMATION TECHNOLOGY

GAME DEVELOPMENT - ADVANCED PROGRAMMING

One-year Ontario College Graduate Certificate | London | University Transfer Credits: fanshawec.ca/degreepathways

Designed for students with credentials in programming or computer science, this program provides students with the skills and knowledge needed to enter the rapidly growing entertainment, education and simulation software-development industries. Students gain in-depth knowledge of the programmer's role on a technical project team and develop skills in graphic effects, animation systems, artificial intelligence, physical modelling, sound and scripting systems. Students also learn how to create, configure and integrate custom game components, and study game models, simulation, performance and configuration of both single-player and multi-player games. Graduates emerge with highly marketable and transferable skills, as well as professional-quality portfolios of game fragments and demonstrations. They are well-prepared for software-development careers, both inside and outside the gaming industry, as senior programmers, game programmers and C++ programmers.

INFORMATION SECURITY MANAGEMENT

One-year Ontario College Graduate Certificate | London | University Transfer Credits: fanshawec.ca/degreepathways

This program prepares students for work in the growing field of protecting and securing information in today's business world. Students are equipped with the skills needed to identify vulnerabilities as well as design and implement safeguards. Curriculum covers risk analysis, vulnerability testing, security-policy writing, access-control implementation and IT auditing. It also develops interpersonal, organizational, technical, communication and problem-solving skills. Graduates are well-prepared for careers as security analysts, chief security officers, information security auditors and threat-risk/vulnerability security specialists. This program is delivered in a face-to face classroom setting or as an online program.

NETWORK SECURITY ARCHITECTURE

One-year Ontario College Graduate Certificate | London | University Transfer Credits: fanshawec.ca/degreepathways

This unique program will cover the key aspects of enterprise network design and the systems and protocols required for secure access to the network. Students will learn advanced networking and security concepts, including the following: four areas of study covered under Cisco's CCNP-Security and network design for Microsoft and Linux system, advance network design, access controls and authentication systems. There is an identified shortage for graduates with this high-level skill set. Graduates are well positioned to pursue careers as a Security Analyst, Security Systems Analyst, Security Architect and Security Systems Engineer.

SOFTWARE & INFORMATION SYSTEMS TESTING

One-year Ontario College Graduate Certificate | London

Aimed at providing a better understanding of the testing paradigms and methodologies associated with information technology and software development, students will emerge from this program with a solid understanding of software and hardware, how to ensure quality control and how to use project management approaches and business analysis techniques. An excellent complement to business or information technology college and university graduates, this program will provide an in-demand skill set, teaching students how to write external test scripts and the different methods used to figure out the experience of the end-user, from bug testing to reporting, graduating with practical experience in project management, leadership and security testing. Graduates may choose to pursue additional graduate programs in Project Management, Information Security Management or Game Development - Advanced Programming at Fanshawe or start their career in software and security testing, quality control/quality assurance.

DESIGN & THE ARTS

“

“Coming out of university, I knew I wanted to work in wardrobe, but I wasn’t sure if I had the experience or skills I needed. Now that I’ve graduated from Fanshawe’s Costume Production program, I know I’m on the right path and that the technical skills I’ve gained prepared me for my career in professional theatre.”

Jordan

Jordan Johnstone, Alumni
Technical Costume Studies

YOUR STORY™

COSTUME PRODUCTION

45-week Ontario College Graduate Certificate | Centre for Digital and Performance Arts (London)

This three-semester program will build upon students’ existing fashion design or theatre skills and prepare them to enter the world of costume development and creation for theatre. Students learn both the technical and creative aspects of costuming for theatre through components of classroom theory, studio training and practical work placement. Advanced classroom studies in theatre history, wardrobe planning and script analysis serve as the foundation for the focused practical training in technical costume cutting and construction. The program offers students the unique opportunity to work in collaboration with industry professionals within actual theatre wardrobe settings during their field placement. This program is supported by affiliations with The Stratford Festival, The Shaw Festival, the Banff Centre of the Arts, The Grand Theatre London, The London Regional Art Museum, International Alliance of Theatrical Stage Employees (IATSE) and National Association of Broadcast Employees and Technicians (NABET).

GEOGRAPHIC INFORMATION SYSTEMS (GIS)

One-year Ontario College Graduate Certificate | London

This program prepares students for employment in the rapidly growing GIS/Geomatics industry. The curriculum is project-based, software-intensive and interdisciplinary, building the flexible skills required by this exciting industry. Curriculum focus is on foundational GIS skills, including information systems, programming basics, spatial data acquisition, remote sensing and web GIS. Graduates work as GIS application specialists, programmer analysts, analysts and researchers, and in related occupations in the GIS software industry, government agencies, and any private industry using geo-spatial technologies. This program is offered as a face-to-face classroom format with an optional online capacity.

MEDIA

Committed to his craft, Adamm spends six weeks of his summer working as Director of Photography on the set of the iconic Canadian sitcom, "Trailer Park Boys". In his spare time, Adamm is directing documentaries, "The Bandido Massacre", "REDS" (following Canada's Women's soccer team to 2016 Olympics) and developing a comedy series called, "Park Brown".

Adamm Liley, Professor
Advanced Filmmaking

YOUR STORY™

3D ANIMATION & CHARACTER DESIGN

One-year Ontario College Graduate Certificate | London

This program is designed for students with credentials in fine art, media or design. This program teaches the skills needed to create 3D animated characters and animated short films. Coursework covers life drawing and storyboarding, 3D modeling and animation, shaders, texture mapping and lighting, character design, video editing, and audio effects. Students also explore concept development, teamwork, strategic planning and project management. Graduates are well-prepared to work as 3D animators, character designers, effects artists, storyboard artists and level designers for the film, video, animation and gaming industries. They may also find work with companies creating television commercials, industrial and commercial videos and educational material.

ADVANCED FILMMAKING

**45-week Ontario College Graduate Certificate | London |
University Transfer Credits: fanshawec.ca/degreepathways**

This program is designed for students wishing to build on their degree or diploma skills through hands-on work creating narrative and documentary films and television productions. Students explore all aspects of filmmaking including writing, filming, directing, producing and editing, as well as project management and marketing. Participants work with talented students from other programs (television, theatre, fashion, multimedia, music industry arts) to create original works. Graduates become independent filmmakers, or find work as writers, media content creators, directors, producers and project managers with film and television companies across North America. Opportunities also exist in marketing and distribution.

AUDIO POST-PRODUCTION

One-year Ontario College Graduate Certificate | London

This program is designed for students wishing to specialize in audio post-production work for the music, film, television, gaming and digital arts industries. Students explore pre-production and planning, production techniques, delivery and storage formats, surround-sound production, ADR, foley, sound effects, mixing, editing, mastering and restoration. Individual and group projects provide opportunities to work with students from related programs (television, music arts, theatre, etc.), as well as hands-on experience in our state-of-the-art post-production audio studio. Graduates emerge with professional-quality portfolios, and find work in audio and video post-production, location audio recording, game audio, independent production houses, television and film, sound recording studios, web audio design, industrial and corporate media and live audio production.

INTERACTIVE MEDIA SPECIALIST

**One-year Ontario College Graduate Certificate |
Centre for Digital and Performance Arts (London)**

This program provides arts, media and design graduates with intensive training in new-media technologies, such as concept and branding, marketing and design, coding, content creation and web streaming. The curriculum combines coursework in design and visual imaging, marketing and media management with technology from Adobe, Discreet, and open source technologies for Web application development and more. Graduates work as designers, programmers, producers, art directors, technical leads and project managers in audio visual departments in education, healthcare, insurance, broadcasting. Some graduates become entrepreneurs.

VISUAL EFFECTS & EDITING FOR CONTEMPORARY MEDIA

**One-year Ontario College Graduate Certificate | London |
University Transfer Credits: fanshawec.ca/degreepathways**

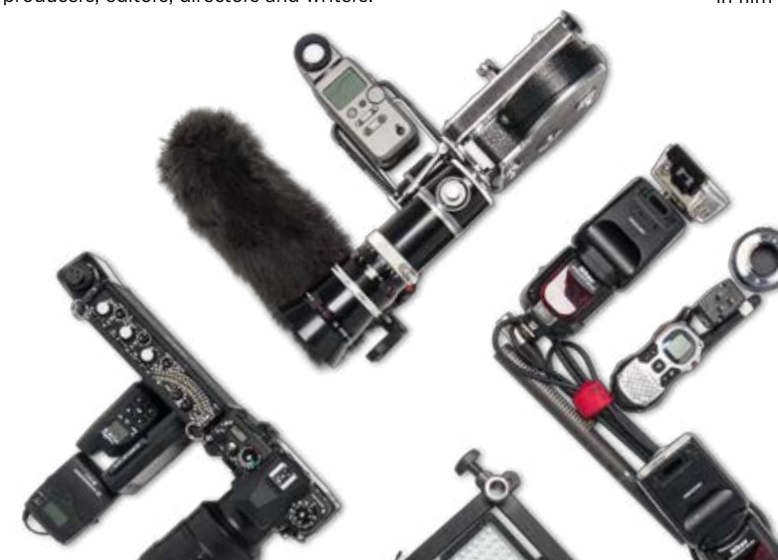

This program is designed for students wishing to specialize in visual effects and editing work for the post-production industry. Curriculum focus is on audio and video editing, motion graphics, 3D animation, and compositing and visual effects, using the latest technologies and software. Students engage in a collaborative learning process with colleagues from other programs, perform self-directed portfolio projects and complete a four-week internship within Canada's post-production industry. Graduates are well prepared to work as editors, composers and animators in film and television industries.

BROADCAST JOURNALISM - TELEVISION NEWS

**One-year Ontario College Graduate Certificate | London |
University Transfer Credits: fanshawec.ca/degreepathways**

This program prepares students for careers in television news. Students develop hands-on skills in research, writing, news-gathering, interviewing, editing and producing television news stories. Practical experience is gained through working in Fanshawe's Broadcast Centre and through internship placements in Canada's top newsrooms. Graduates are well prepared for careers in television news as journalists, videographers, producers, editors, directors and writers.

TOURISM, HOSPITALITY & RECREATION

"The Retirement Residence Management program got my foot in the door. The program allowed me to gain experience in the retirement home as a recreation aid and at the same time studying managerial education! Two months after graduation, I scored a full-time job as Recreation Manager at a Retirement Residence!"

Steven Tolles, Alumni
Retirement Residence Management

YOUR STORY™

CONCIERGE SERVICES - GUEST-RELATIONS SPECIALIST

One-year Ontario College Graduate Certificate | London | University Transfer Credits: fanshawec.ca/degreepathways

This program develops the superb critical-thinking and customer service skills required by the high-end tourism and hospitality industry. Students work in a collaborative boardroom setting which produces graduates with the knowledge, sophistication, poise and confidence prized by this global industry. The curriculum is focused on professional development, global knowledge, cultural literacy and world economics. According to the Globe and Mail, it is one of "the most renowned courses of study offered by community colleges across the country." Graduates find employment in supervisory and management roles with internationally recognized hospitality and corporate service providers.

HOSPITALITY & TOURISM MANAGEMENT

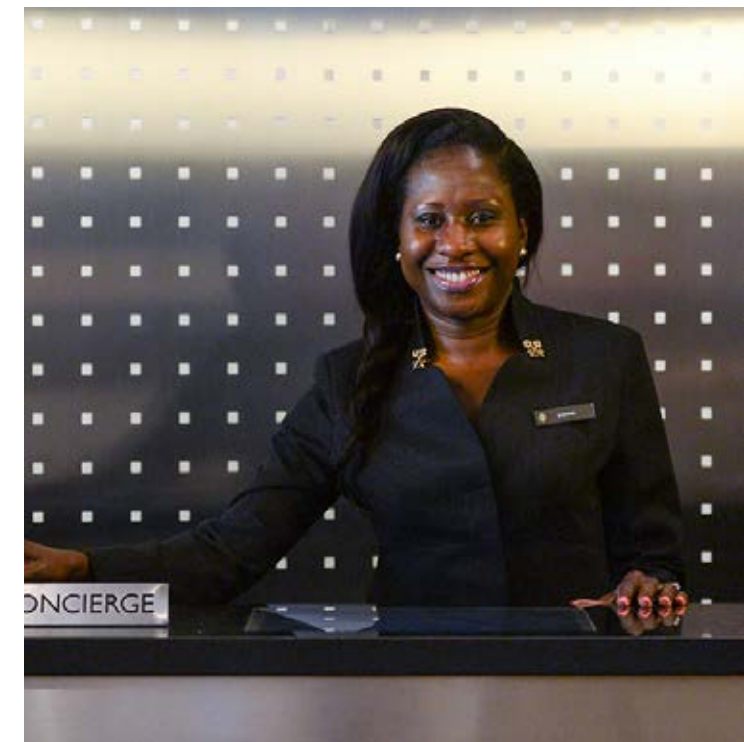

One-year Ontario College Graduate Certificate | London

Designed for university and college graduates seeking a career in the tourism and hospitality sector, this graduate program will focus on applied knowledge in the field of hospitality operations within a global economy, encompassing the planning and management of hospitality businesses of varying size and complexity. Students will apply critical thinking, multitasking, and problem-solving skills in demand by the hospitality industry as well as develop analytical and collaborative problem solving skills through case studies with leading industry partners using relevant industry technology. Hone your customer service and supervisory skills via practical hands-on training in our fine dining restaurant Saffron's and apply teamwork and leadership skills, create strategies for supervising, motivating employees, and work as a team to achieve the goals and objectives of the hospitality workplace. Graduates will be prepared to start their career in first-line supervisory and management positions in various hospitality sectors including accommodations, food and beverage, guest services and tourism.

RETIREMENT RESIDENCE MANAGEMENT

One-year Ontario College Graduate Certificate | London

This program is designed to enhance the graduate's ability to succeed in the management of evolving and dynamic retirement lifestyle facilities. Highlights include a focus on collaborative leadership, networking with the industry, and comprehensive perspective of an assisted living lifestyle property. Retirement residence managers foster a team of professionals responsible for the following departments: food service, wellness, recreational activities, sales and marketing, and facilities and maintenance. Before graduating to seek employment in the growing retirement residence industry, students will complete two experiential learning components in a retirement facility.

CULINARY ARTS

ARTISANAL CULINARY ARTS

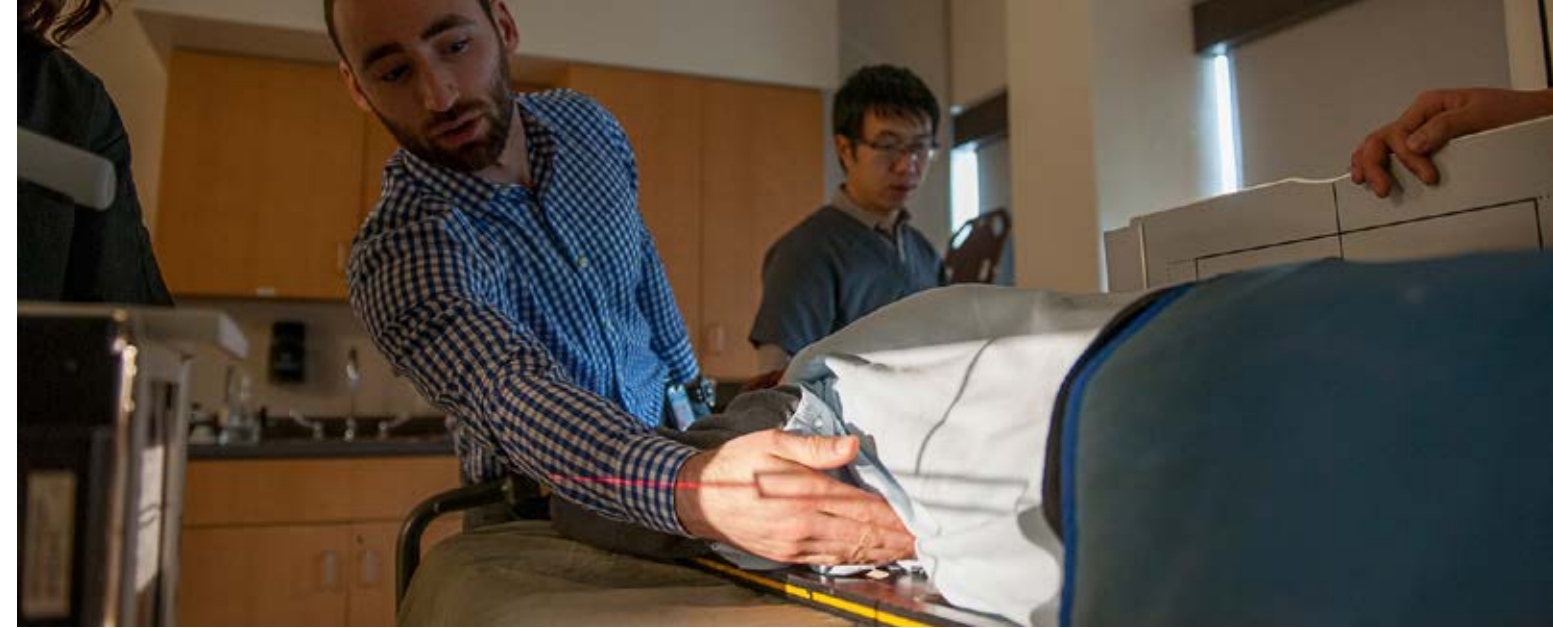

One-year Ontario College Graduate Certificate | London

This program is for qualified students who wish to explore the growing field of artisanal food preparation. Coursework highlights sustainable agricultural models vs. industrialized food-production systems, allowing students to develop a deep respect for food and its origins. Graduates emerge with demonstrated competence in traditional food preparation methods such as preserving, artisanal baking and butchery. Students also acquire expertise in using local/sustainable product to create advanced dishes, menus and recipes. The program aims to create chefs who appreciate the origins of food, are competent in executing traditional processing methods, and understand how these variables affect finished taste and quality. Graduates will be prepared to share their skills and knowledge with a diverse clientele on both the national and international culinary stage.

ADVANCED BAKER/PATISSIER

15-week Declaration of Academic Achievement | London | Part-Time

Designed for culinary graduates with a passion for baking, this program will teach you to master the art of creating danish and croissant dough, yeast breads, choux paste, chocolates and pralines, petit fours, French pastries and more. Plus, students will master the finer points of weights and measures, recipe calculations and terminology. Artistic passions are further honed in decorating, developing your skills with gum paste and other showpieces. Under the guidance of Chef Roland Hofner, students will receive personal attention and critique. Part of a team, students will share their dreams while learning the ins and outs of owning their own business. Graduates will emerge from this program as a Qualified Patisserie.

HEALTH SCIENCES

HEALTH SYSTEMS MANAGEMENT

One-year Ontario College Graduate Certificate | London

Designed for university or college graduates seeking a career in the field of Health Administration and e-health digital transformation, this program will discuss fascinating global advancements in the use of technology in electronic patient records, automated voice transcription, digital imaging concepts, ADT (admission-discharge-transfer) systems messaging and workflow. Students will develop valuable skills in protocol analysis using HL7 and Dicom, HIPPA/PIPEDA/Security, billing, and similar technology. Upon graduation, this training will increase your marketability with employers who are looking for motivated graduates whom understand the current systems used at health care facilities. The program is also excellent preparation for those interested in pursuing additional post-graduate study in Project Management or Information Security Management at Fanshawe.

MAGNETIC RESONANCE IMAGING

One-year Ontario College Graduate Certificate | London

This program is designed for practicing medical radiation technologists wishing to expand their careers to include Magnetic Resonance Imaging (MRI). The program format combines face to face classes and lab activities one day per week with online learning activities. Areas of study include MRI Physics, Patient care and MRI safety in level one. Applied Science of MRI, Cross-sectional Anatomy and Pathology in level two. A full-time 16-week practicum at an affiliated site will follow. Students are prepped to write the MRI national certification exam set by the Canadian Association of Medical Radiation Technologists (CAMRT) during a two week Consolidation and Review component of study following the clinical practicum. Graduates in this program are also eligible to write the American Registry of Radiologic Technologist MRI National Exam.

ANESTHESIA ASSISTANT

45-week Ontario College Graduate Certificate | London

This program is offered in a flexible delivery format. Students attend class one day per week during the first two terms, with a full-time clinical practicum in term three. Anesthesia Assistants are specially trained, health professionals that participate in the care of surgical patients during general, regional, or local anesthesia under the immediate supervision of an anesthesiologist. Graduates are well prepared for the high demand work in hospitals across Canada, working primarily in the operating room but also in areas such as post-operative care, labour and delivery, emergency and intensive care. **Note: This program is a minimum of 38 weeks; however, it can also exceed 38 weeks in length.**

EMERGENCY NURSING - REGISTERED NURSE

One-year Ontario Graduate Certificate | London | Part-Time

This program is designed for nurses who have recently graduated or would like to gain employment in Emergency Nursing. This program enhances the participant's problem solving, decision making abilities and technical skills in Emergency Nursing including emergency departments, urgent care units or out posting settings. Completion of the certificate academically prepares the nurse for the CNA Emergency Nursing Certification Exam. Students must complete a minimum of six credits in this program to meet the program residency requirement and graduate.

POLICE & PUBLIC SAFETY

ADVANCED CARE PARAMEDIC

48-week Ontario College Graduate Certificate | London

This Canadian Medical Association (CMA) accredited program will build upon the knowledge and experience of practicing Paramedics and prepare graduates to deliver an expanded set of controlled medical acts to patients suffering from serious medical and traumatic emergencies. Using advanced assessment, critical thinking and decision-making skills, graduates are able to perform invasive therapeutic interventions to manage life-threatening situations in the pre-hospital environment. To achieve these outcomes, students will participate in interactive and challenging classroom, laboratory, hospital clinical and field placement learning environments. Due to the nature of the program, class sizes and student-faculty ratios are small.

ADVANCED ERGONOMIC STUDIES

One-year Ontario College Graduate Certificate | London

The first of its kind in Canada, this program will provide students with a fundamental understanding about the science of ergonomics. In labs, classes and field placements, students will learn to use analytical tools to provide assessments of an employee's job related tasks in the workplace. Current technologies and techniques will be examined in addition to applying theoretical principles to worker and workspace interactions. Students will also study the legislative and regulatory environment, the role of the Workplace Safety and Insurance Board and the financial impacts of injury. Upon completion of the program, graduates will be eligible to apply for the title of Associate Ergonomist (AE) as recognized by the Canadian College for the Certification of Professional Ergonomists. Career opportunities for graduates are diverse and may include: Ergonomist, Health and Safety Specialists and Systems Analyst.

ADVANCED LAW ENFORCEMENT, INVESTIGATIONS & SECURITY

One-year Ontario College Graduate Certificate | London

Designed to prepare graduates to successfully enter the workforce as law enforcement and security professionals, this intensive graduate program is completed in two semesters, with each semester concluding with a five-week field placement. Students broaden their knowledge base and skill set in law enforcement, investigations and security to improve their employability and prepare for advancement to supervisory roles. Core competencies include physical fitness, use of defensive tactics, professional communication, mental health awareness, court preparation, crisis intervention and conflict management. Sector-specific content includes regulatory enforcement, security for specialized environments and customs and border protection. Students also receive instruction in investigative techniques, including foot and vehicle surveillance and the use of associated technologies. In addition to field placement experiences, simulations throughout the program ensures students have the opportunity for practical application of classroom instruction and to develop problem-solving and critical thinking skills.

ADVANCED POLICE STUDIES

One-year Ontario College Graduate Certificate | London

This intensive program provides students with specialized knowledge and advanced skills to prepare graduates to become competent police recruit candidates. The curriculum focuses on the practical application of community policing models, provincial and federal statutes and crime scene investigative techniques. Students will develop skills in oral and written communication, conflict resolution, conducting criminal investigations, court preparation and police vehicle operation. Physical fitness and officer safety will be emphasized. Students will participate in a field placement with a police service for five weeks during each term.

EMERGENCY MANAGEMENT

24-week Ontario College Graduate Certificate | London

This program reflects the work emergency managers must be able to perform on a regular basis within the framework of appropriate emergency management legislation. Students will be equipped with the necessary skills to address key areas of emergency management from disaster preparedness, coordination and management of emergency events escalating through to catastrophes, hazards, risk assessment, terrorism, mitigation/prevention, preparedness, response and recovery. This program is delivered in a blended in-class/online delivery format. It is suitable for students who can commit one day per week in-class and who are also self-motivated to complete the extensive online learning that is required. Graduates will be eligible to apply for positions within the business/industry and public sectors in larger companies and municipalities leading emergency management planning and liaising with community partners.

PARALEGAL

One-year Ontario College Graduate Certificate | London

This program is designed for students interested in a career as a Licensed Paralegal in Ontario. The program will allow those seeking licensing, in accordance with the Law Society Act and under the Law Society of Upper Canada (LSUC), to become a practicing paralegal as well as provide an opportunity for those who wish to upgrade their skills and broaden their areas of knowledge and expertise in authorized areas of practice. This program is accredited by the LSUC and designed in accordance with LSUC curriculum requirements and core competencies and provides training in those areas in which a licensed paralegal may legally practice. Students gain 120-hours of extensive practical hands-on experience in a legal environment. Graduates are prepared to apply for the provincial Licensing exams and upon successful completion of the Licensing exam process and attainment of licensed paralegal status will be eligible for employment as a Licensed Paralegal in Ontario.

PUBLIC SAFETY LEADERSHIP

One-year Ontario College Graduate Certificate | London

This program is designed to provide emergency services professionals with opportunities to develop, or further enhance, their leadership competencies. Students will build on previously obtained emergency services, related academics and vocational experience. Professionals working in public service sectors such as EMS, police and fire who are currently in, or are readying for, a leadership role within their service are appropriate candidates for this program. The program will equip public safety professionals with the skills to advance in their current place of employment or in other emergency services related environments. Graduates may obtain prospective leadership roles in sergeant, staff sergeant, inspector, chief, captain, charge nurse, nurse coordinator and more.

"The Emergency Management program at Fanshawe was an amazing experience that helped build my professional career and set me up for success in the workplace. Since graduating, I have found employment at the Canadian Red Cross working for the disaster management team. I highly recommend this program to anyone wanting to break into the world of emergency management."

YOUR STORY™

EDUCATION & SOCIAL SERVICES

AUTISM & BEHAVIOURAL SCIENCE

One-year Ontario College Graduate Certificate | London

This program is for students with a background in Child and Youth Work, Early Childhood Education, social or developmental services or social science. The program develops advanced knowledge of autism and effective techniques for intervention. Coursework includes applied behaviour analysis, Autism Spectrum Disorders, working with families and teams, ethics and professionalism, non-violent crisis prevention and intervention, and transition planning and implementation. Students also complete two field placements, gaining hands-on experience and further developing their skills. Graduates pursue careers as instructor therapists, private providers of Intensive Behavioural Intervention (IBI), and autism specialists in service agencies and school boards.

Autism and Behavioural Science is also offered in two flexible formats geared for working professionals:

Weekend College – completed in 12 consecutive months in blended online and in-class format. Students also complete a six-week placement, gaining hands-on experience and further developing their skills. Placements are available in the daytime, evening and weekend.

Part-Time Online – offered via Part-Time Studies and can be completed online, course-by-course, at your convenience. Students must complete a minimum of 10 credits in this program at Fanshawe College to meet the program residency requirement and graduate.

CAREER DEVELOPMENT PRACTITIONER

One-year Ontario College Graduate Certificate | London | Part-Time

This program is designed to enhance the knowledge, skill and values base of a wide range of individuals who are engaged in some form or career development work or volunteer work in professional settings. Students must complete a minimum of nine credits in this program at Fanshawe to meet residency requirement and graduate.

CHILD & YOUTH CARE (FAST TRACK)

16-month Ontario College Advanced Diploma | London | University Transfer Credits: fanshawec.ca/degreepathways

This program is designed for students holding credentials in human services, psychology, sociology or related fields. The Child and Youth Worker program prepares individuals to provide care and treatment for children and youth experiencing emotional, behavioural, social and mental health challenges. Studies include child growth and development, child welfare legislation, case management, family issues and art and play therapy. Regular field placements provide hands-on experience, with graduates well-prepared for positions in group homes, correctional services, residential treatment centres, children's aid societies, boards of education and hospitals.

DEVELOPMENTAL SERVICES WORKER (FAST TRACK)

10-month Ontario College Diploma | London | University Transfer Credits: fanshawec.ca/degreepathways

This program is designed for students holding credentials in human services, psychology, sociology or related fields. This diploma prepares students as specialists in supporting children and adults with developmental disabilities. Coursework includes disabilities, mental health, interpersonal skills, counselling, health, pharmacology, and teaching and intervention strategies. Students also gain hands-on experience through community-agency field placements. Graduates work as support workers, advocates and educational assistants (EAs) for agencies providing accommodation, leisure and employment support and for boards of education.

EARLY CHILDHOOD EDUCATION (FAST TRACK)

10-month Ontario College Diploma | London | University Transfer Credits: fanshawec.ca/degreepathways

This program is designed for students holding credentials in human services or social sciences. Through coursework and field practicum, students develop their knowledge and skills with children, families and community partners. Studies include child development, curriculum design and implementation, health, safety and nutrition, as well as personal development and communications. Graduates may work in a diverse range of education, family and/or community settings, and will qualify for registration with the College of Early Childhood Educators.

Early Childhood Education (Fast Track) is also available in a flexible format geared to working professionals:

Weekend College - Students will attend classes for full days Saturday and Sunday one weekend per month. The remainder of the program will be offered online. All courses are equivalent to the full-time Early Childhood Education (Fast Track) weekday program. A mandatory unpaid field practicum (630 hours) is completed from May to July in a licensed early years setting.

GERONTOLOGY - INTERPROFESSIONAL PRACTICE

One-year Ontario College Graduate Certificate | London

This graduate program is designed to offer students the relevant knowledge and skills needed to enhance their professional practice in the care of the specialized population of aging adults. Students will have the opportunity to develop skills in recreation and leadership, developmental disabilities and social interventions that support quality of life and person-centred care. Participation in an interprofessional field placement with community organizations will further prepare graduates for employment in settings such as retirement, long term care, group homes and home support services.

SOCIAL SERVICE WORKER (FAST TRACK)

10-month Ontario College Diploma | London & Simcoe | University Transfer Credits: fanshawec.ca/degreepathways

Designed for students with credentials in human services or social sciences, this program prepares students for work in social agencies and social welfare programs, where they help individuals, groups and families facing personal challenges. Coursework delivers a sound knowledge of human behaviour and individual and social problems, and equips students with the helping techniques needed to make a difference in their clients' lives. Graduates are prepared to seek admission to the Ontario College of Social Workers and Social Service workers, and for employment in anti-violence, corrections, addictions, education, crisis intervention and community development settings.

"Fanshawe's Autism and Behavioural Science program gives you the opportunity to extend your knowledge through student placement positions. Applying the principles and techniques I learned in the classroom in real-life settings has been the most valuable and rewarding aspect of the program."

Amarda Selimi, Alumni
Autism & Behavioural Science

YOUR STORY™

SCIENCE & ENGINEERING

PRACTICAL ELEMENTS OF MECHANICAL ENGINEERING

One-year Ontario College Graduate Certificate | London

This program gives engineering students intensive training in the practical elements associated with their profession, such as CAD, Blueprint Reading, Machining and Welding. The program has been created to complement the theoretical skills that they presently obtain in their formal studies at the university level.

TECHNOLOGY

CONSTRUCTION & TRADES

CONSTRUCTION PROJECT MANAGEMENT

One-year Ontario College Graduate Certificate | London

This program focuses on the knowledge and skills required to advance in the construction industry to a management position, including the theory and practice of managing a residential, industrial, commercial and institutional (I.C.I.) construction project from start to finish, while working in an inter professional environment and coordinating the work with a variety of other trades professions. Graduates are prepared to manage all phases and aspects of the construction process effectively and to deal with a wide variety of situations and issues that may emerge on a construction job site. This program has been accredited under the Canadian Construction Association's Gold Seal Certificate program. Upon graduation, students will have earned credits toward their Gold Seal Certificate for each and every course taken in the program.

NOTE	POST-ADMISSION REQUIREMENTS
1	Possession of a valid Standard First Aid course (either St. John Ambulance or Canadian Red Cross or equivalent) and a Basic Rescuer course certificate - Basic Life Support (BLS) for Health Care Providers (HCP) in accordance with the Heart and Stroke Foundation of Canada Canadian Guidelines for CPR. Evidence of good health and/or immunizations. Placement agreement.
2	Police Record Check and Vulnerable Sector Screening, including a check of the Pardoned Sexual Offenders database.
3	Possession of Standard First Aid course certificate (either St. John Ambulance or Canadian Red Cross or equivalent) and a Basic Rescuer course certificate (Level "C" CPR) and Automated External Defibrillator (AED). Possession of valid class 'G' driver's licence and a driver's abstract that validates that the applicant has no more than 6 demerit points. Clear (no criminal offences) Police Check for Vulnerable Sector Screening (VSS) completed within 6 months prior to application for program ALE1 and no earlier than Feb. 1 for program APS2. An interview will be conducted to determine if eligible for field placement. Successful background screening conducted by a placement agency (for ALE1) or police agency (for APS2) on behalf of the College.
4	Proof of having achieved the Ontario Police Fitness Award (OPFA) or successfully completed the Physical Abilities Requirement Evaluation (PARE) within the six months prior to commencement of the program. Completion of Introduction to Incident Management System IMS 100 (Emergency Management Ontario). Security Guard License (issued by the Ministry of Community Safety and Correctional Services).
5	Proof of having met Police Fitness Standards, including valid Physical Readiness Evaluation for Police (PREP) certificate or certification of ability to meet the PREP standard obtained no earlier than February 1.
6	Evidence of good health and/or immunizations.
7	Placement agreement.
8	Pre-clinical/placement condition.
9	Valid Safe Food Handlers Certificate and/or Smart Serve.
10	Possession of Standard First Aid course certificate (either St. John Ambulance or Canadian Red Cross or equivalent) and a Basic Rescuer course certificate (Level "C" CPR) and Automated External Defibrillator (AED). - within 6 months of program start date for program FSE1. Evidence of good health.
11	Completion of an MR Screening Form. In some specific cases, there are absolute contraindications (e.g. some cardiac pacemakers, cochlear implant) to the field of MRI that would prevent a person from practising in this area. If you find yourself in this situation you need to be aware of this restriction - you will be ineligible to attend the clinical practicum of the MRI program and therefore will not be eligible to graduate from the MRI program. Certain implants, devices or objects may be hazardous to you in the MRI environment. If you answer yes to any of the contraindications on the MR Screening form checklist, please contact the MRI Program Coordinator before enrolling in the program.
12	Health Screening Information Form (HSIF)/immunization check.
